Planning Sheet 4

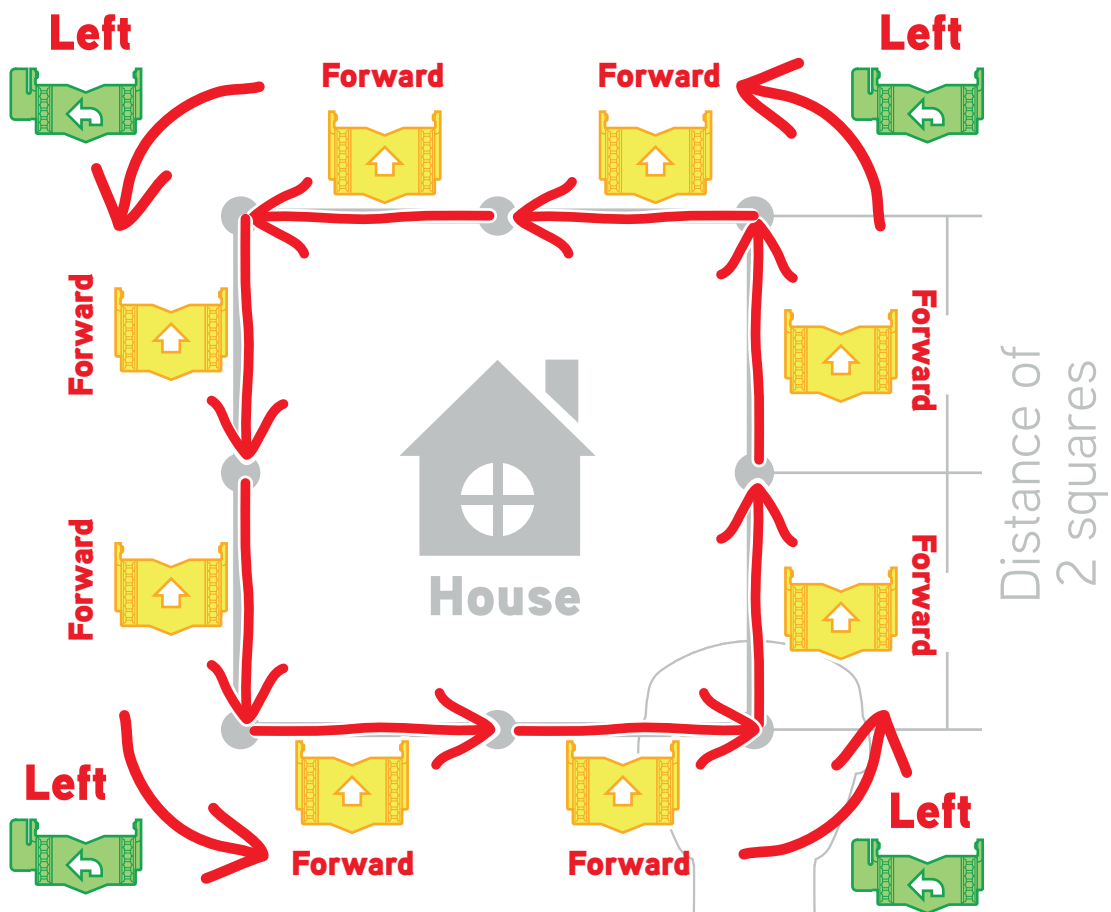

Let's deepen our programming!
(Free Course)

Name _____

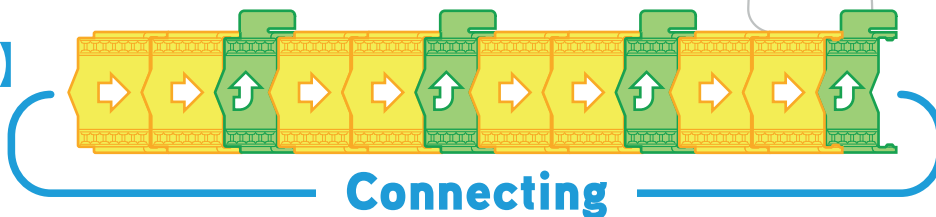

For teachers: Please make copies of the planning sheets.

Square loop

Let's get whale to patrol around our house all the time!

Sample Answers

*The above is an example of a counterclockwise answer.

In the case of clockwise rotation, it can be created by changing all the bit blocks at the corners to right-hand blocks.

★ Be careful of the front and back of the block when connecting in a loop. If you make a mistake, the left and right sides will be reversed.
